-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1-9 are pending in this application.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 8-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pasquier et al. (DE 101 41 722 A1). The US. Patent Application Publication No. 2004/0200010 A1 is used in this rejection as English translation of the Patent (DE 101 41 722 A1).

3. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Pasquier et al. (PAP' 010 A1) teaches a chemical compound of a formula (I) (see page 1, formula (I)), which is an isomer of the claimed formula (I), when in the reference's formula (I), R1 denotes a group of formula (II) wherein R2-R6 are hydrogen atoms as claimed in claims 8-9 (see page 1, paragraphs, 0007-0008).

The instant claims differ from the reference by reciting 4-aminobiphenyl-ol derivatives having a claimed formula (I).

However, nothing unobvious is seen in substituting the known claimed position isomer for the structurally similar isomer taught by Pasquier et al. (PAP' 010 A1), since such

Art Unit: 1751

structurally related compounds suggest one another and would be expected to share common properties absent a showing of unexpected results.

Allowable Subject Matter

4. Claims 1-7 are allowed because the prior art of record do not teach or disclose the limitations of these claimed that required a colorant composition based on a developer-coupler combination.

Conclusion

5 The remaining references listed on from PTO-A820 have been reviewed by the examiner and are considered to be cumulative to or less material than the prior art references relied upon in the rejection above. The reference listed in form PTO-A820, under "OTHER DOCUMENTS" have not been reviewed by the Examiner and therefore these references are not considered because they are not available. The Examiner advised applicants to provide copies of these references with the response to this office action for consideration by the Examiner.
